Mobile :9949084030**

7.1.4 Water conservation facilities available in the Institution:

1. Rain water harvesting

As per the instructions of the Government of Andhra Pradesh, rain water harvesting pits are established in the college premises way back in the year 2010. Every year they are being cleaned during the starting of the rain season by our non-teaching staff.

2. Bore well /Open well recharge : The College is located very near to River Godavari and the groundwater levels are at about 20 feet. We take all precautions to maintain Bore wells by making repairs as and when required.

3. Maintenance of water bodies and distribution system in the campus : The water distribution system in the campus is through pipe line. College is having one Municipal Drinking Water connection and Two Borewells for other purposes.
