

FIELD TRIP

OBJECTIVE :

To develop practical experience of preparation skills observed in Industries among chemistry students.

DISCRIPTION

The department of chemistry conducted Field trip for I, II & III year chemistry students. DT: 20/12/2021 at Lakshmi polymer Industry, chebrolu W.G.dist. and Haritha seeds at Guantupalli, W.G.dist. All chemistry students are observed the preparation methods of polymer sheets and preserving methods of seeds.

OUTCOME

students know the preparation method of polymer sheet & preserving methods of seeds.
